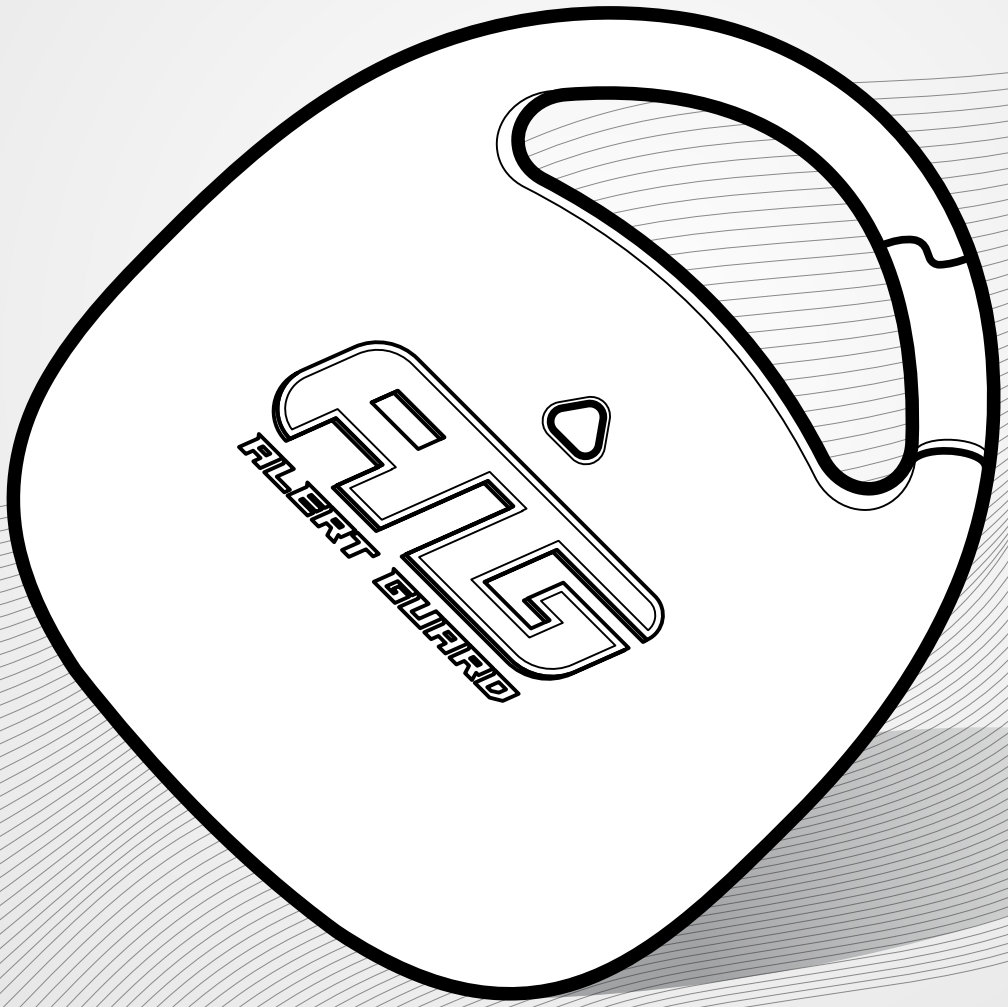
ALERT GUARD



ALERT GUARD

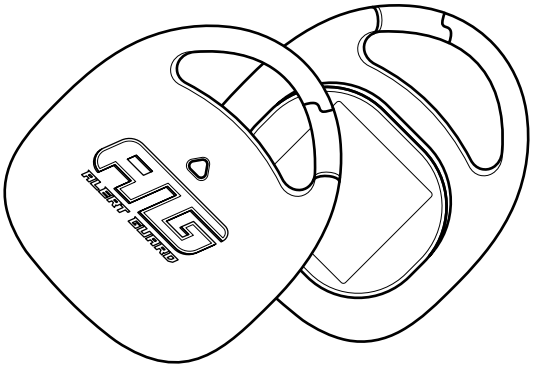
INSTRUCTION MANUAL

INSTRUCTION MANUAL

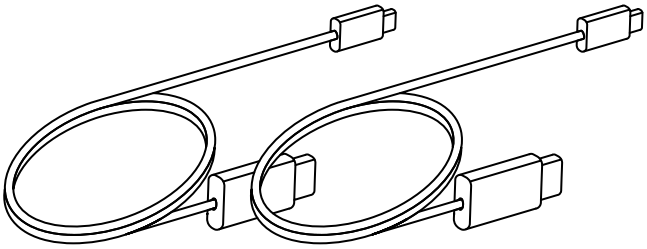
1. PRODUCT OVERVIEW

Alert Guard is a compact personal safety device designed to keep your kids or valuables safe. When two Alert Guard units are paired, they maintain a wireless connection and alert you with a buzzer and LED if one of the devices moves out of range. The device clips conveniently to a bag, belt loop, or
Key chain via the built-in carbine.

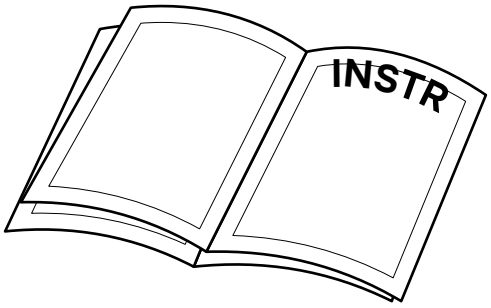
2. WHAT'S IN THE BOX



2 × ATG Alert Guard devices



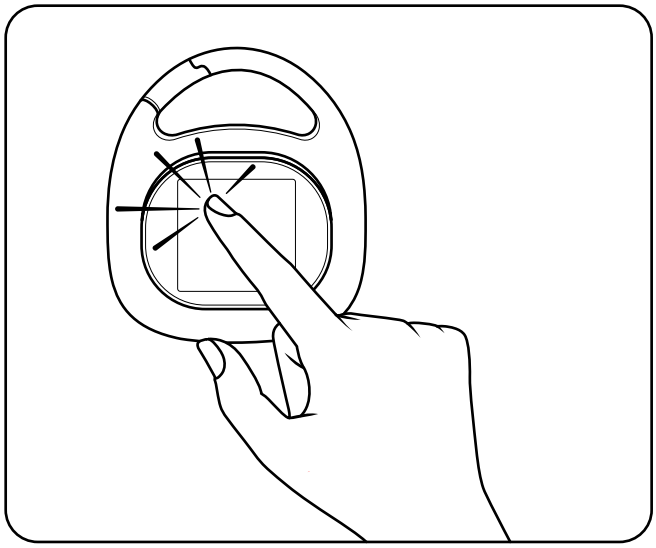
2 × Charging cables (USB-C)



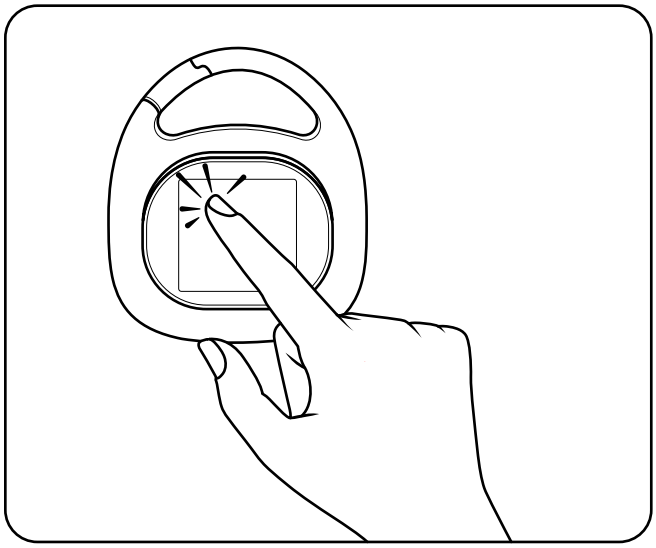
1 × Quick Start Guide

3. BUTTON CONTROLS

The device has a single multi-function button. Use it as described below:



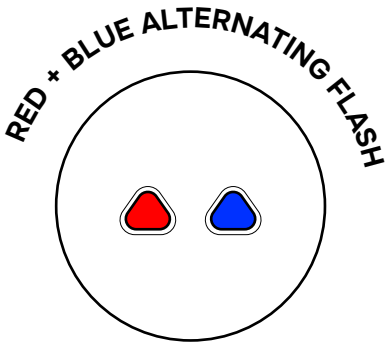
LONG PRESS (WHEN ON)
Put the device into Sleep Mode



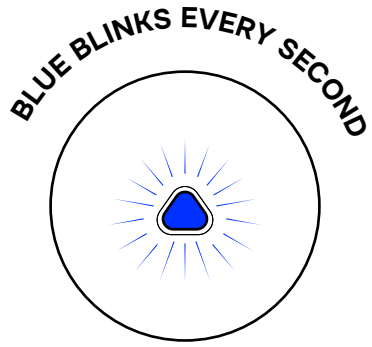
SINGLE PRESS (WHEN IN SLEEP)
Wake device and turn it back on

INSTRUCTION MANUAL

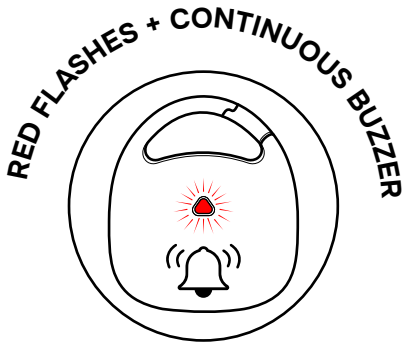
4. LED & BUZZER INDICATORS



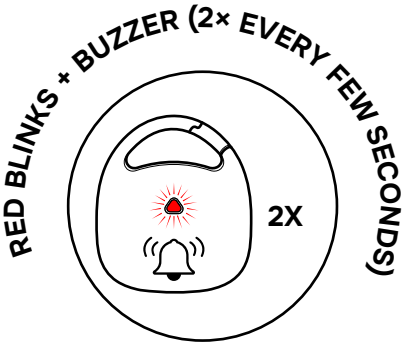
Pairing Mode – device is searching for its partner unit



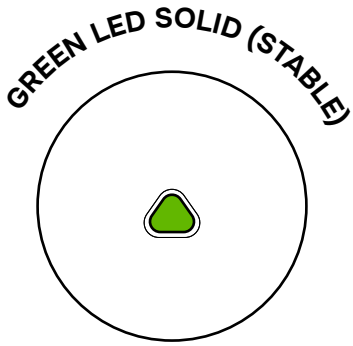
Connected – device is linked to its partner



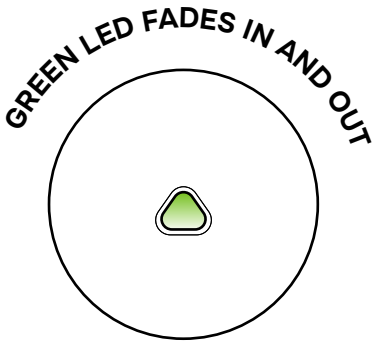
Partner Out of Range – your partner has moved too far away



Low Battery – charge the device soon



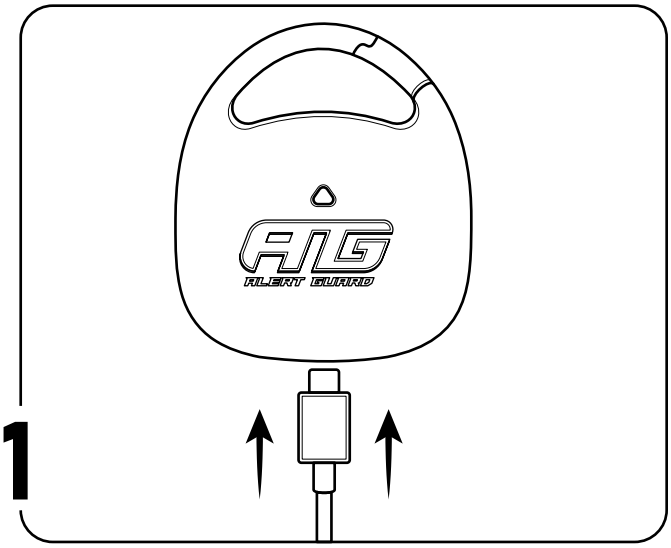
Charging Complete – battery fully charged



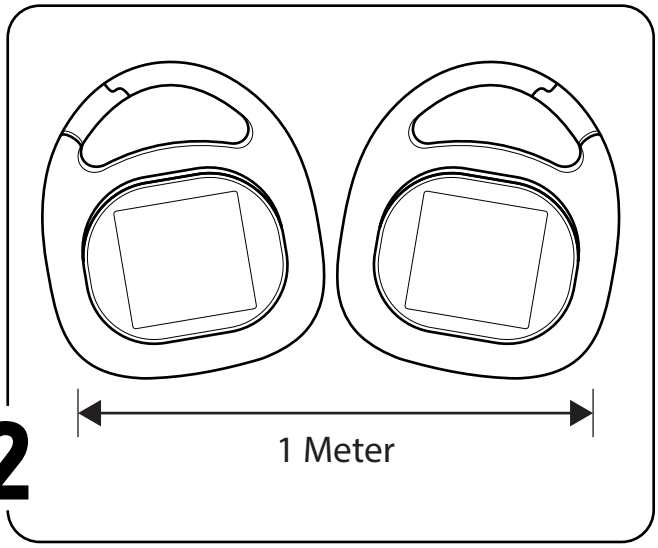
Charging in Progress – device is currently charging

5. GETTING STARTED

Follow these steps to pair two Alert Guard devices for the first time:

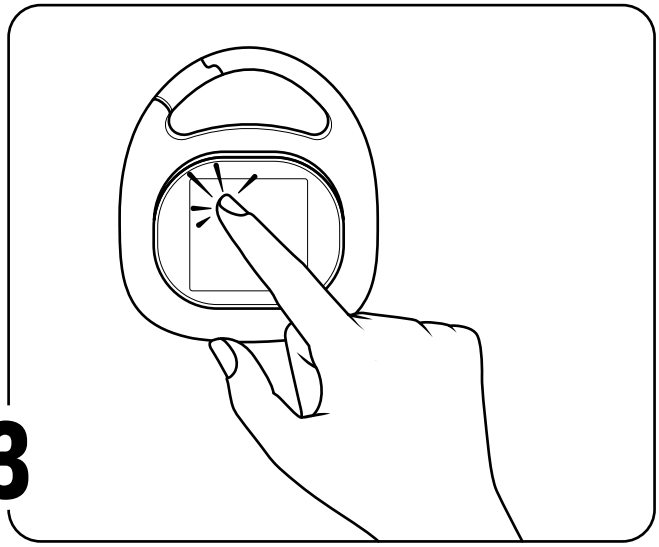


Charge both devices fully before first use



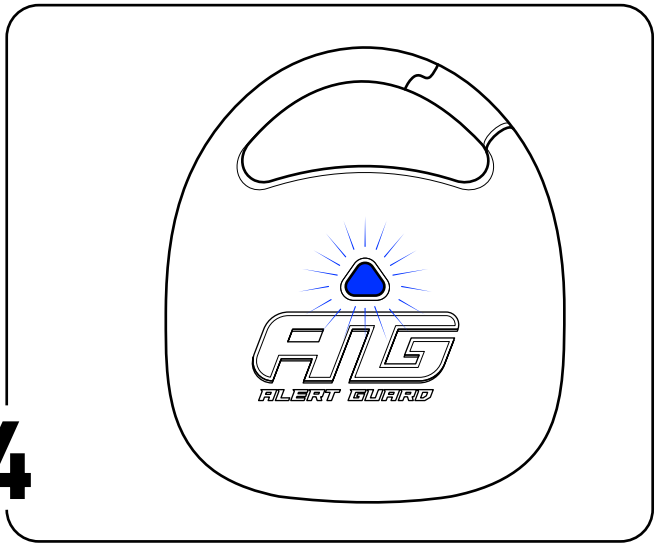
Hold the two devices within close range (approx. 1 meter) of each other until they pair.

INSTRUCTION MANUAL



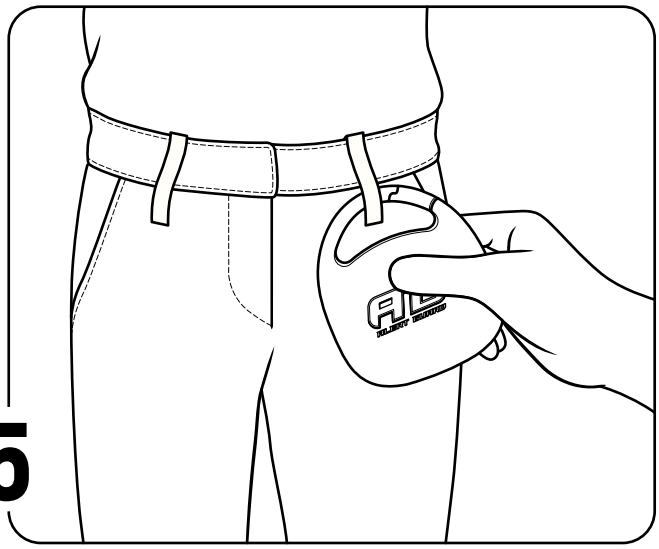
3

Power on both units. The LED will alternate between Red and Blue, indicating Pairing Mode.



4

Once paired, the Blue LED will blink every second on both devices – this confirms a successful connection.



5

Give one device to your partner. The units will continue to monitor proximity and alert you if the connection is broken.

6. CHARGING

Connect the included USB charging cable to the device's charging port. The Green LED will fade in and out while charging is in progress. When charging is complete, the Green LED will remain solid.

Important charging notes:

- When the charger is removed, the device automatically exits Sleep and enters Pairing Mode.
- If you connect the charger while the device is in Sleep Mode, it will power on automatically and the Green LED will illuminate.

7. SAFETY & CARE

- Keep away from water and extreme moisture.
- Do not expose to temperatures above 60˚C or below -10˚C.
- Do not disassemble or attempt to repair the device.
- Use only the provided USB cable for charging.
- This device is a supplementary safety aid and should not replace direct supervision of children or vulnerable individuals.
