QUICK START GUIDE

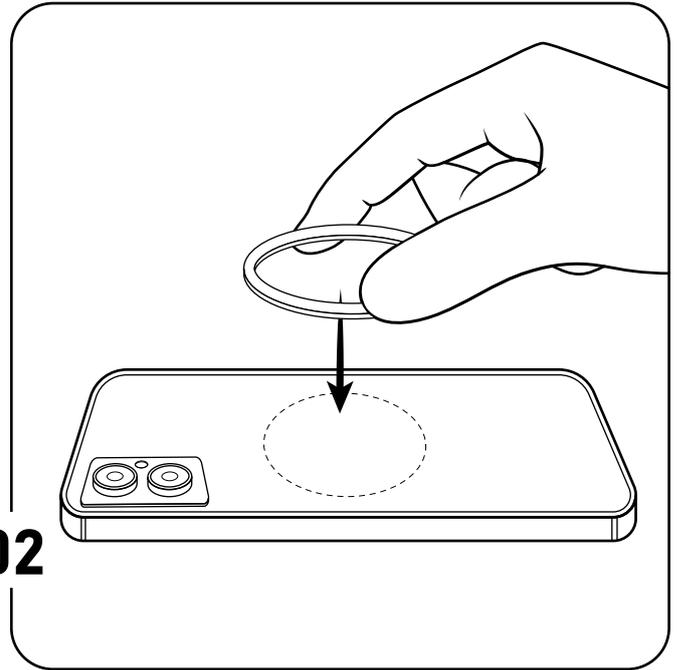

01

Step 1: Set Up the Charger

Plug the 20W Home Fast Charger into a power outlet. Connect one end of the USB-C to USB-C Cable to the Clutchit Charge device. Plug the other end into the power adapter.

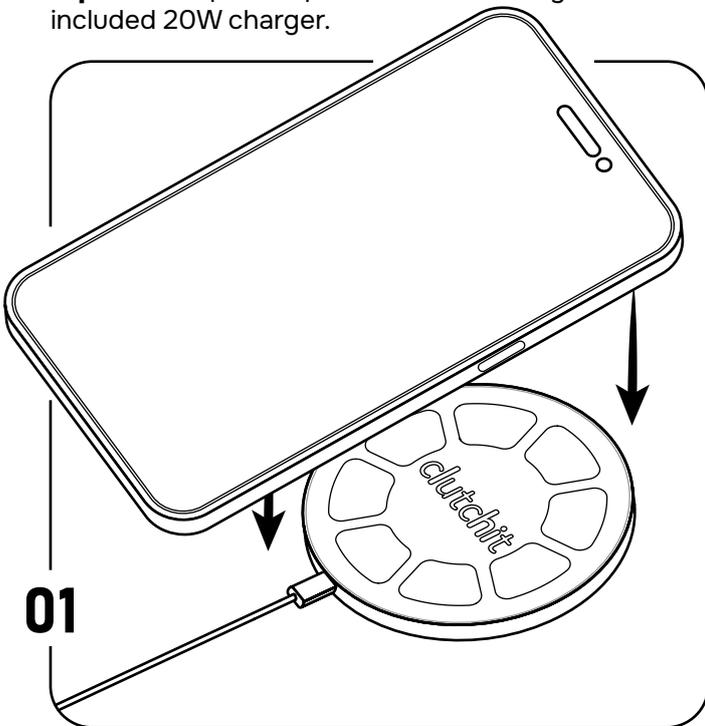

Tip: For optimal performance, always use the included 20W charger.

02

Step 2: Prepare Your Device

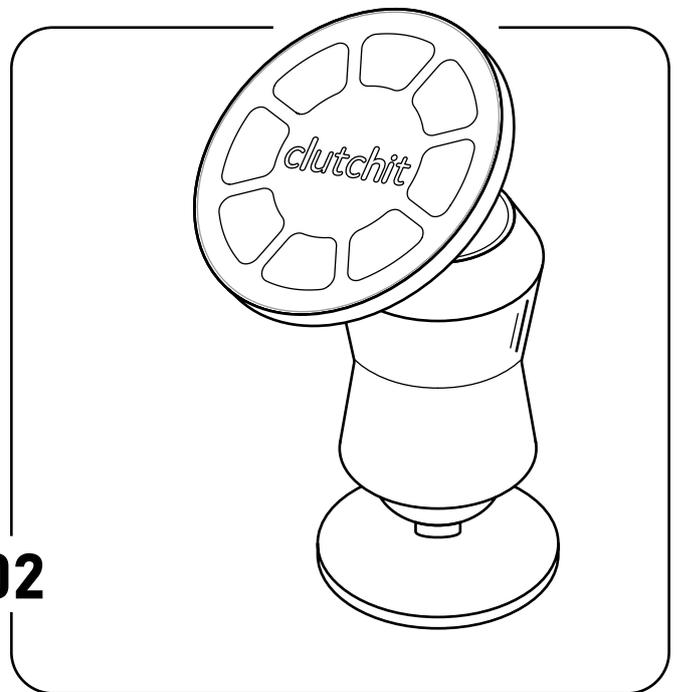

If your phone or case is MagSafe compatible, you're ready to go. If your phone or case is not MagSafe ready, peel the backing off one of the included metal discs and firmly adhere it to the center of your device or case. Let it sit for 5 minutes for best adhesion.

01

Step 3: Charging Your Device

Place your device directly on the Clutchit Charge surface. Make sure it aligns magnetically and begins charging.

02

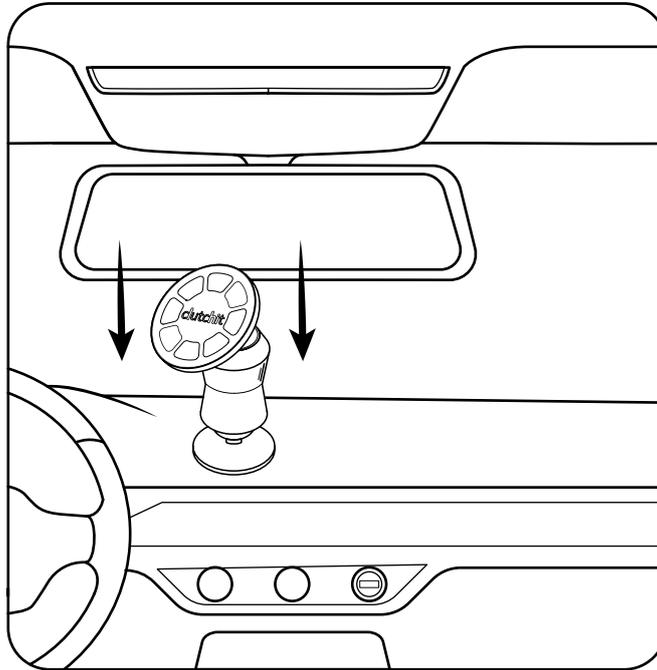

Step 4: Mount Compatibility (Optional)

Clutchit Charge magnetically attaches to the original Clutchit Mount, instantly converting it into a MagSafe-compatible mount. Simply snap Clutchit Charge onto your Clutchit Mount and enjoy a secure hold and wireless charging in one solution.

USAGE SCENARIOS

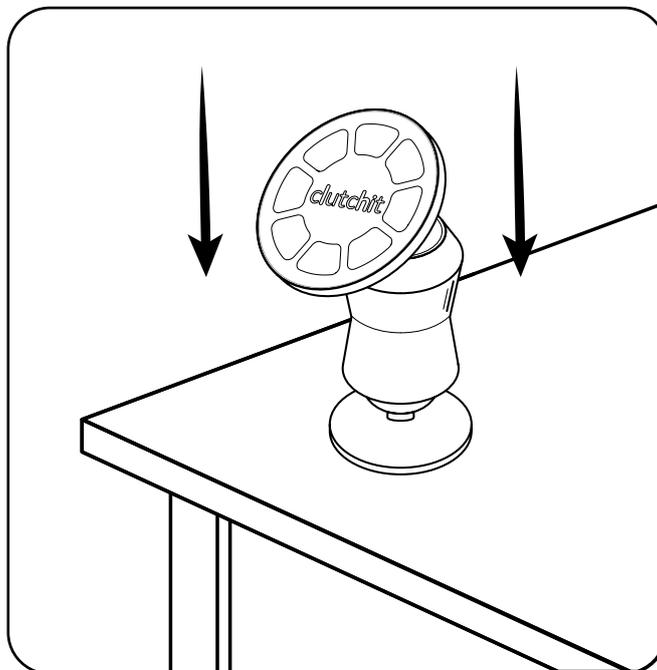

IN THE CAR:

Attach Clutchit Charge to the Clutchit Mount for hands-free navigation while wirelessly charging. Keeps your phone secure on bumpy roads with MagSafe strength.

ON YOUR DESK:

Use as a wireless charging stand during work or video calls. Keeps your phone accessible and charging while you multitask.
